

Saban is building a new clinic for the Crenshaw District

In 2026, Crenshaw residents will have access to a full range of affordable healthcare services all in one place at our new community healthcare center.

All the health care services you need in one convenient place

Under one roof, you will have the best medical, dental and mental health services, preventive care, an on-site pharmacy and help with insurance enrollment. The new health center will offer personalized care that meets you where you are, in a warm, welcoming environment.

A beautiful space where top doctors provide the personal care you deserve

We're building a bright, modern two-story health center where people can get the quality care they need and deserve, from the best doctors.

We make it easy to put your health first

When healthcare isn't convenient and affordable, health can take a back seat to life's 100 other demands. We'll make it easier for people to be healthy. Plus having our clinic in the neighborhood gives local businesses what amounts to a health plan for all employees!

Affordable whole-person healthcare: A one-stop destination that's close to home

The Crenshaw Health Center will be a one-stop health home for the neighborhood. In a time when government policies are making it harder to get health care, we're making it both convenient and affordable. We give everyone outstanding, compassionate care (medical, dental, and mental) regardless of ability to pay.

**CARING FOR ANYONE
ACCESS FOR EVERYONE**

Regular medical and dental care can lead to a better job

Good health can be life changing. When you feel better you do better at work. When your teeth look good, job interviews go better too. Patients at our other clinics have gotten higher-paying jobs after our dentists gave them new teeth to replace the ones lost over the years. Healthy smiles open new doors!

What's happening & when

Construction is expected to take about a year. Our grand opening is planned for late 2026.

Partner with us to secure a healthier future for the community

Saban is partnering with community organizations to create a healthier future for the Crenshaw District. Work with us to help educate people about health coverage and sign them up for Medi-Cal and Covered California insurance. Consistent medical coverage drives better health outcomes. Let's work together for a healthier community.

Our CEO Muriel Nurwezem recently accepted the Community Care Partner of the Year award on behalf of Saban Community Clinic at Assembly member Rick Chavez Zbur's Community Excellence Awards
